Even with 20' + high water, Jason & Rich Shaw figured it out once again locating quality fish off shore with 10" Black Grape Worms to take the win again against a field of 22 boats.

Congratulations Rich & Jason!

Pomme was over 24' high and takeoff had to be moved to the Nemo Public Use area since Nemo Resort's docks were inaccessible. It was like fishing a completely new lake. The high water made fishing much more difficult than in years past and only 84 fish were brought to the scales. In comparison, the June tournament in 2018 saw 294 fish weighed in!

The weather was hot and there was not much cloud cover. Everywhere across the lake you could find big jelly like blobs attached to flooded tree tops and docks which are actually Freshwater Bryozoan Colonies. These are a completely natural occurrence and there is nothing to worry about! You can find more information about them on MDC by typing in "Bryozoans" or "Moss Animals" in the search bar.

In case you haven't heard, Craig Kuhn and Ryan Vallet's boat got T-Boned by a drunk driver while driving down to Pomme. The boat is a complete loss; however, luckily nobody was hurt. As much as we trailer our boats, accidents are bound to happen. Hopefully insurance can get them in a new boat and on the water soon!

Tournament Sponsor

G.Loomis has been a Major Sponsor of the Hawg Hawlers for 8 years! We have given several rods away over the years at the Annual Awards Banquet and several club members own and fish G.Loomis exclusively. If you are in the market for a new rod please make sure to check out their amazing selection of technique specific rods. They offer 6 different lines of rods for bass anglers to include the Conquest, NRX, IMX-Pro, GLX, E6X and Classic.

CLASSIC MAG BASS

These are the rods that started it all for G.Loomis in the bass fishing world. Based on levels of performance, these rods remain on the cutting edge of graphite technology today. They are nononsense, no frills, high performance fishing tools. Fuji reel seats, cork grips and the best guides available to give anglers the lightest, most sensitive rods in the business. There are three levels of graphite performance available in the most popular models, GL3, IMX and GLX. These

are 6'6" and 7' casting rods, originally developed for longer casts applications. The term MAG came from their magnum tapers that generate a lot of power and provide excellent fish-fighting capability. Longer rear-cork grips help provide leverage and balance. They are excellent for pitching or overhand casting and are unbelievably strong for such light weight rods. These rods were originally designed to fish for bass, but as anglers will experiment many have found them to be excellent for walleye, pike, freshwater stripers, redfish and snook - a testament to their light weight and sensitivity, not to mention unbelievable power. You will be amazed at the versatility of these rods!
